

Everest Experience Flight | Duration: 1 Day Days | Cost: \$215

Everest Experience is a close-encounter mountain flight-seeing tour with small aircraft. Indulge in the panorama and may be, you might realize what you have been missing, or find what you have been looking for, all this while. After all a trip to Nepal would be incomplete without truly understanding what really makes it beautiful. Nothing compares to the sheer beauty or awe, the Himalayas has to offer. Take the mother of all mountain flights, the Everest Experience where we put you, one on one with Mt. Everest, so close that you can almost touch it. For those who are restricted by time or other considerations from going trekking, these flights offer a panoramic view of the Himalayan in just one hour. Even those visitors who like the rigors of trek still do not miss the opportunity to conquer the mountains in one fell swoop. Travelers take off from Kathmandu in the early morning for an hours worth of spectacular mountain scenery. As the aircraft lifts up and heads towards the east, passengers do not have to wait too long to find out what's in store for them. There they are-the mountains, as they always have been. Beat The Monsoon you need not to worry even if there are monsoon clouds on the day of your mountain flight because they are usually up to 20,000 feet and our is the only airline in Nepal to fly over these clouds operating at 25,000 feet. Thus, the spectacular Himalayas will not be hidden from you even during the monsoon, in our flight. Our aircrafts are the American Beech 1900D, French-Italian ATR 42-300 or ATR-72-500, which have all the modern avionics, instruments and airframe that are in a modern jetliner. We fly everyday all year round; please check out the possibilities as soon as possible since we are fully booked up during the season. Note: On-Demand experience
